This photograph, taken at the CBHT Ground Breaking ceremony on May 6 is *literally* what L'Dor V'Dor means – in this case, it's three generations of the Dave Family (Graycen, Jeff and Jerry). Also participating in this ceremonial event are Dorothy Fligel, Joan Rocamora and Marilyn Patton - all relatives of charter CBHT members. We have so much to be proud of having reached our first major milestone in renovating and updating our building. Over the months and through next year, we will keep you updated on the construction work as well as progress in continuing to raise funds for the next phase of this exciting journey.

As you may remember, the nearly \$3,200,000 dollars that was raised in pledges and donations does not include: furniture, cabinetry or shelving for the new offices and classrooms; the fabulous amphitheatre, at the corner of Liberty and Broad Street, for outside worship services and special events; renovation of the sanctuary; and of course, burning of the mortgage. We are moving forward with thanks to everyone who has participated to date. We should all be very proud of what's been accomplished and what we have to look forward to in the future.

1902 – 1st building at Spruce & Woodfin Streets opened.

1949 – CBHT moved to current building.

1959 – Religious school building opened.

2008 – Capital campaign started.

2011 – Groundbreaking!

Todah Rabah

While there are MANY people who have participated and helped make this dream a reality, one individual stands out above the rest. Our president, Larry Weiss, took this train that had fallen off track, got it back on track and drove it right into the station!! Without his vision, leadership and hard work we would not be where we are today. Thank you Larry, for dedicating yourself to this project and thanks also to your family for their patience and understanding.
